AIR FREIGHT

Our Air Freight services allow you to leverage from our extensive network and linkages with all major airlines, cargo service operators, handling companies and allied services providers.

Let it be your urgent shipment to match with your delivery schedule, special projects and exhibition material, our efficient team specializing in handling Air Freight is there to assist.

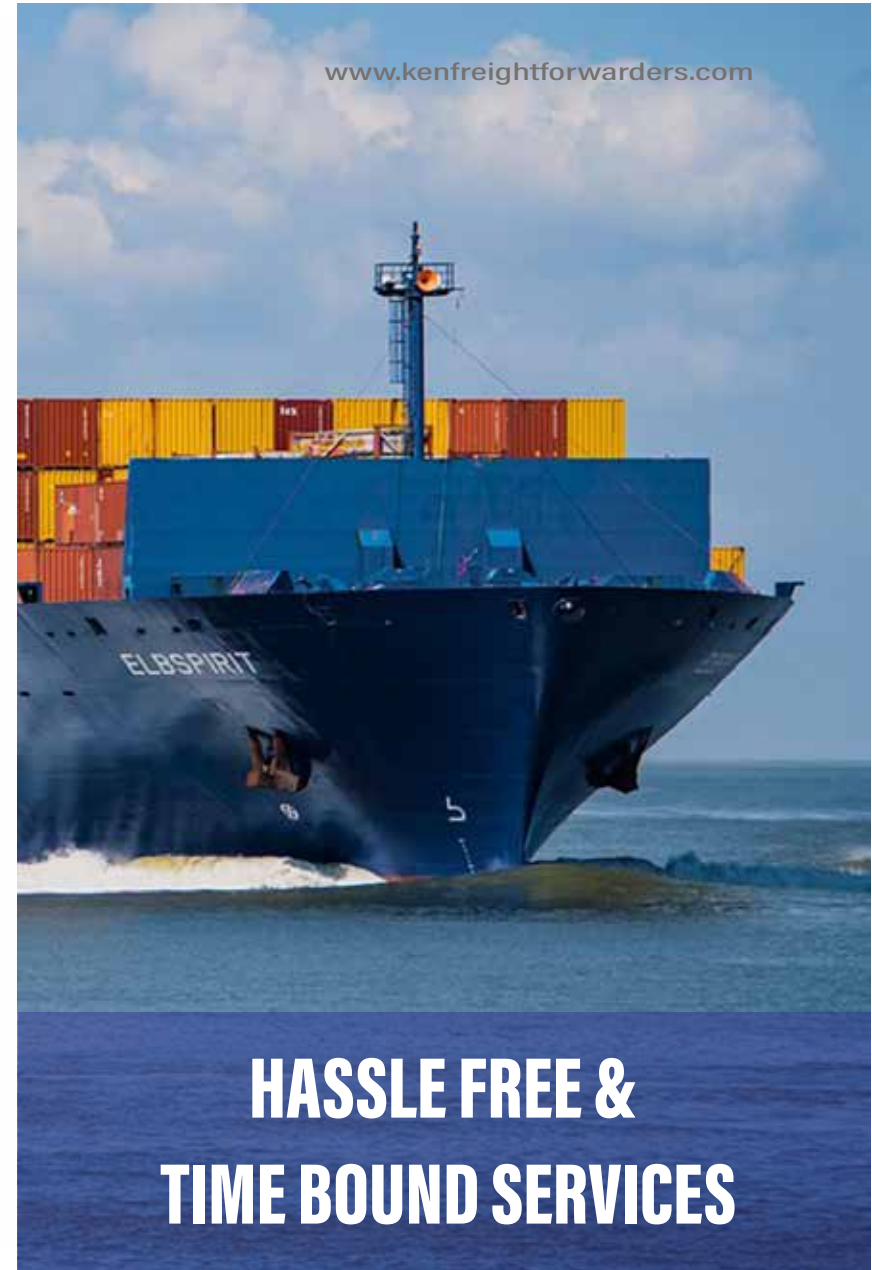

In addition to standard destinations and frequencies, we combine our own charter capacities with existing services on the market to offer you customized connections for your airfreight. Not only do we have an extensive global airfreight network, we also offer ground and ocean freight transport services, thus providing you with seamless transport services worldwide. Our services also cover customs clearance and our enhanced special service options.

SEA FREIGHT

Our specialized ocean freight team is fully equipped to handle your queries to ensure that you get competitive rates and top notch services, end to end.

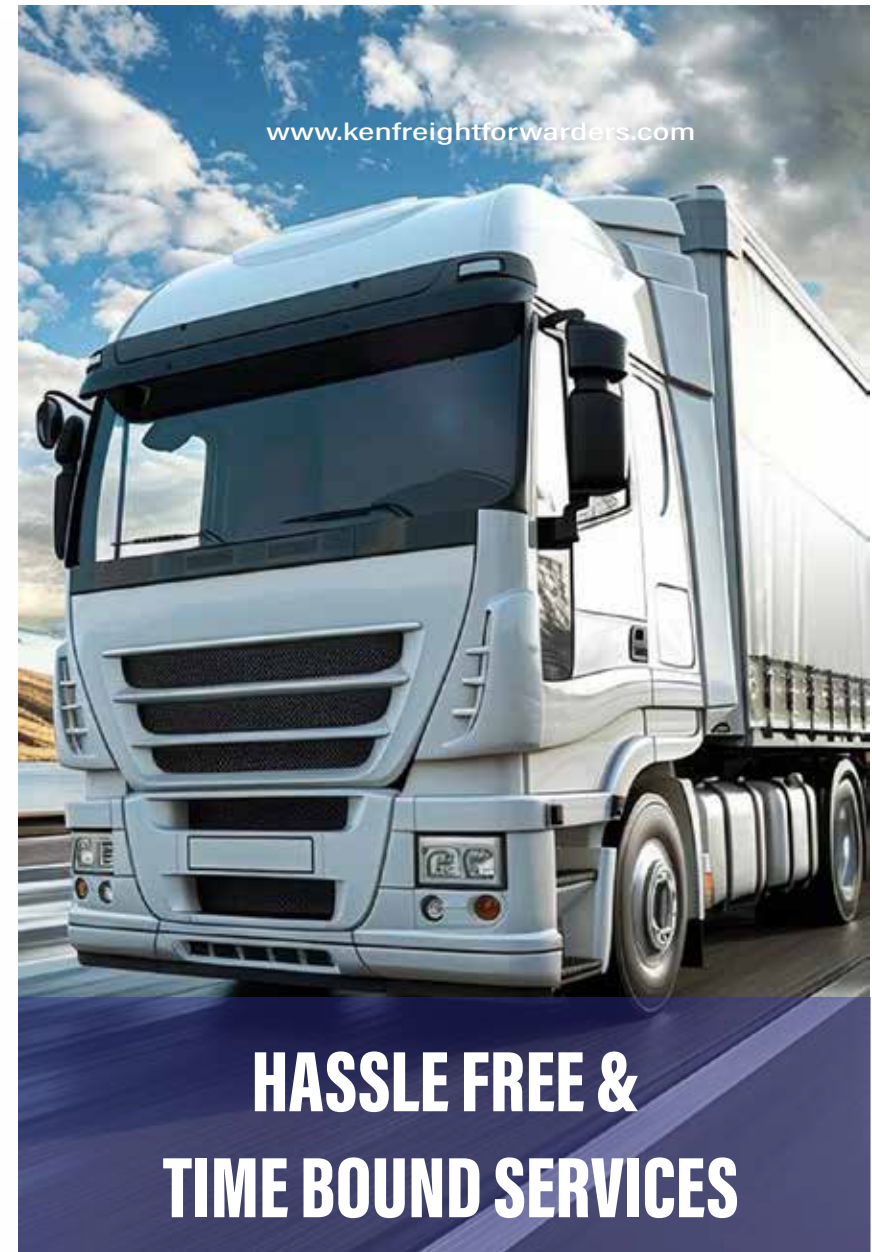

Our sea freight services include Full Container Load (FCL), Less Than Container Load (LCL), Break Bulk and Out of Gauge Cargo. We guarantee fast transits, space and equipment assurances, schedule management, door to door delivery and transit tracking. These value-added capabilities coupled with highly competitive rates and unmatched customer services make us an ideal choice for managing your sea freight

LAND FREIGHT

Our expertise for managing Land Freight includes cost minimization, unmatched transport efficiencies, global networks and highly specialized team to ensure efficient management of your cargo. We operate on a blend of self owned and outsourced transport model to ensure timely connections and Deliveries

We manage all our shipments using the best of technology to provide with ready updates with regards to tracking your shipment

WAREHOUSING AND DISTRIBUTION

Strategically located and widely placed warehouses are yet another reason to use OBS Logistics as your business Partner.

Our warehouses are open 24/7 and are technologically equipped to ensure efficient handling, security and safety, loading and unloading and fast and efficient order picking
